

2022 HOOSIER TRACTION MEET AT DAYTON OHIO

On Sunday August 21, 2022 those attending the joint Hoosier Traction Meet and the North American Transit Historical Society Convention at Dayton, Ohio, were treated to a day of riding the trolley buses owned by Dayton RTA. Four trolley buses were provided by Dayton RTA for the enjoyment of the convention attendees to ride on; 110, 1402, 9835 and 2065. The route traveled by the buses during the 2022 six-hour outing was different from the tour of Dayton enjoyed by those attending the 2021 Convention. All those riding had time to switch from bus to bus so that they could savor riding on both the historical buses and the current fleet buses. Numerous stops were made for photo line opportunities. Interestingly numerous locals joined the photo line to take photos of the buses using their cell phones.

Hopefully on the third Sunday in August 2023 Dayton RTA will treat the attendees of the Hoosier Traction Meet and the North American Transit Historical Society Convention to a day of seeing Dayton by riding a trolley bus.

Bus 2065, a combination overhead wire powered and off wire battery powered trolley bus, being followed by the Dayton RTA push truck

Dayton RTA trolley bus 9835 and trolley bus 1402 are seen having passed under the CSXT mainline.

Our four buses pause curbside waiting for their riders to board.

A photo line is forming in the medium next to the street art memorializing the first powered flight.

Convention attendees have claimed their seats on bus 9835.

Trolley bus poles at times have a mind of their own.

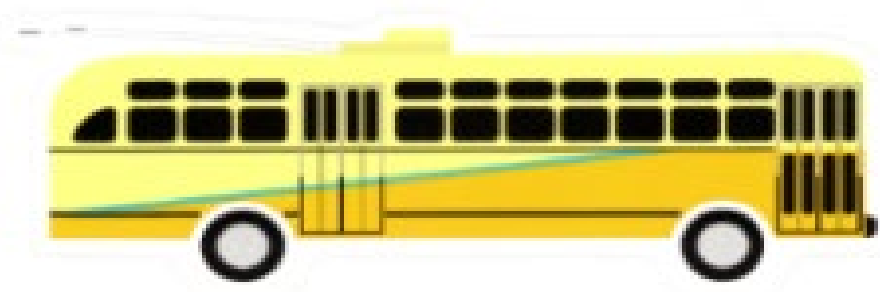

Our fleet of buses rounding Dayton's Civil War Monument.

An impromptu photo line.

Two passerbys join the formal photo line.

Dayton RTA handout of the progression over the years of trolley buses in Dayton
